

PROGRAM BEC Meeting 2019
29 November – 1 December
Sofia Tech Park

29 November (Friday)	
13.00	Pre-congress Sessions
SESSION 1	SUPERIOR VENA CAVA SYNDROMES (CASE BASED) <i>Moderator: Vassil Velchev, Salah Dine Qanadli</i> <i>Panelists: Nikolay Stoyanov</i>
13.30 – 13.40	Catheter-related superior vena cava syndromes Vassil Velchev/Nikolay Stoyanov
13.40 – 13.50	Techniques for recanalization and other therapeutic options Salah Dine Qanadli
13.50 – 14.00	Hybrid approach to management of acute iliofemoropopliteal phlebothrombosis in May-Thurner syndrome Dimitar Nikolov/Konstantin Grudkov
14.00 – 14.30	TBC PE Ivo Petrov
14.30 – 14.40	Results of endovascular treatment of superior and inferior vena cava and mid-term follow-up (up to 65 months) Iveta Tasheva
14.40 – 15.00	<i>Coffee break</i>
15.00 – 16.00	LIVE CASE (venous endovascular intervention) Operators: Vassil Velchev, Salah Dine Canli, Nikolay Stoyanov
SESSION 2	ACUTE STROKE INTERVENTIONS <i>Moderators: Klaus Mathias, Iris Grunwald</i> <i>Panelists: Ivo Petrov, Nurfet Alioski</i>
16.00 – 16.10	New guidelines for ET in stroke (ETS) Klaus Mathias
16.10 – 16.20	Technical tips and tricks for thromboaspiration and stentriever Iris Grunwald
16.20 – 16.30	Thrombextraction in basilar artery occlusion Ivo Petrov
16.30 – 16.40	Organization of Bulgarian stroke network Nurfet Alioski
16.40 – 16.50	Endovascular treatment of stroke guidelines update Marko Klisurski
17.00 – 18.00	LIVE CASE (prerecorded)
18.00 – 18.10	How to build a local stroke intervention program Iris Grunwald
18.10 – 18.20	Complications in ETS and how to avoid Klaus Mathias
18.20 – 18.30	Imaging based vs time-based intervention in stroke Iris Grunwald
19.30	Dinner

30 November (Saturday)	
09.00	OPENING CEREMONY ISEVS at BEC 2019 MISSION OF ISEVS <i>Ivo Petrov, Vassil Chervenkov, Vassil Velchev, Jacques Busquet, Rodney White</i>
SESSION 1	ACUTE AORTIC SYNDROME AND TAAA <i>Moderator: Ivo Petrov, Rodney White, Sevket Gorgulu</i> <i>Panelists: Hugo Londero, Donald Reid, Jacques Busquet</i>
09.30 – 09.40	The Multilayer Flow Modulator Stent (MFM) for the treatment of arterial aneurysms Victor Costache
09.40 – 09.50	Fenestrated graft for TAA how to do it Donald Reid
09.50 – 10.00	Bare stents in complex TAAD, TBAD Zoran Stankov
10.00 – 10.10	Endovascular options for AAA rupture Stefan Stefanov
10.10 – 10.20	Centralization of flow concept for type A and B aortic dissection complicated by malperfusion syndrome Ivo Petrov
10.20 – 11.20	LIVE CASE (TEVAR) Operators: Ivo Petrov, Zoran Stankov
11.20 – 11.40	<i>Coffee break</i>
11.40 – 11.50	Our experience with a Balloon Expandable Stent Endo Prosthesis in Complex AAA Hugo Londero
11.50 – 12.00	Chimney technique for complicated type A dissection Ivo Petrov
12.00 – 12.10	Type A aortic dissection – endovascular is coming fast Rodney White
12.10 – 12.30	Endovascular and hybrid treatment in acute aortic syndrome Igor Koncar
12.30 – 13.20	LIVE CASE (AAA) Operators: Ivo Petrov, Zoran Stankov
13.20 – 14.00	<i>Lunch and Poster Session Evaluation</i>
SESSION 2	ENDOVASCULAR INTERVENTIONS IN COMPLEX COMBINED AORTIC PATHOLOGY <i>Moderator: Vassil Chervenkov, Donald Reid</i> <i>Panelists: Sahin Senay, Stefan Stefanov, Sevket Gorgulu</i>
14.00 – 14.10	Combined EVAR and TAVI procedures Lampros Michalis
14.10 – 14.20	Totally endovascular repair in Leriche syndrome Zoran Stankov
14.20 – 14.30	Complex endovascular interventions in aortoiliac pathology Sevket Gorgulu
14.30 – 14.40	Endovascular abdominal aneurysm repair simplified Sahin Senay
SESSION 3	ENDOVASCULAR INTERVENTIONS IN FEMORO-POPLITEAL SEGMENT AND BELOW THE KNEE (BTK) <i>Moderator: Vassil Chervenkov, Nikola Troisi</i> <i>Panelists: Zoran Stankov, Zoltan Ruzsa</i>
14.40 – 14.50	Combined antegrade and retrograde transpopliteal approach in patients with multiple lesions above and below the knee Chavdar Bachvarov
14.50 – 15.00	Retrograde approach in femoropopliteal interventions – technique, procedural success, personal experience Ivan Martinov
15.00 – 15.40	Pedal approach for SFA and BTK Zoltán Ruzsa
15.40 – 16.20	LIVE CASE

16.20 – 16.40	<i>Coffee break</i>
16.40 – 16.50	Endovascular approach in a patient with CTO and instent thrombosis of the superficial femoral artery. Case report Vassil Chervenkov/Nikolay Valchev
16.50 – 17.30	Restenosis after peripheral intervention scope of the problem and how to deal with Jacques Busquet
17.30 – 17.40	Endovascular approach in a patient with totally occluded external iliac and common femoral artery and management of complications. Case report Vassil Chervenkov/Nikolay Valchev
17.40 – 17.50	Endovascular treatment of different types of iliac occlusions - Serbian experience Vladimir Cvetic
17.50 – 18.00	Optimization of the final result in peripheral interventions. Role of IVUS Donald Reid
18.00 – 18.10	Optimising the treatment of lower limb. DCB technologies and new implants Nicola Troisi
18.10 – 18.50	Combined approach in a patient with subclavian artery occlusion and bailout technique in stent covered vertebral artery Vassil Chervenkov/Nikolay Valchev
SESSION 4	CLOSURE DEVICES EXPERIENCE AND DIDACTIC SESSION <i>Moderator: Gary Roubin, Ivo Petrov</i> <i>Panelists: Zoran Stankov, Nikola Troisi</i>
18.50 – 19.00	Routine percutaneous EVAR /TEVAR practice Ivo Petrov
19.00 – 19.30	Percutaneous closure device PROGLIDE
19.30 – 20.00	Large Bore Closure – Why MANTA is the Safest and Most Reliable Gary Roubin
20.00	Dinner

1 December (Sunday)	
SESSION 1	CAROTID AND OTHER SUPRAAORTIC INTERVENTIONS <i>Moderator: Klaus Mathias, Ivo Petrov, Gary Roubin</i> <i>Panelists: Hugo Londero, Zoran Stankov</i>
09.30 – 09.40	Recanalization of subclavian artery. Case based Valery Gelev
09.40 – 09.50	Endovascular interventions in patients with critical stenoses of carotid arteries Chavdar Bachvarov
10.00 – 11.00	LIVE CASE (Carotid Intervention)
11.00 – 11.10	Proximal occlusion protection devices in CAS Nikas Dimitrios
11.10 – 11.30	<i>Coffee break</i>
11.30 – 11.40	How late is too late to open a subtotal carotid stenosis after stroke Ivo Petrov
11.40 – 11.50	Contemporary diagnostic and therapeutic approach in acute ischemic stroke Dragan Stojanov
11.50 – 12.30	Double mesh stent C.Guard for optimization of CAS results Peyo Simeonov
12.30 – 12.40	Deep loop cannulation for CAS Zoran Stankov
12.40 – 12.50	Carotid Stenting – revascularization procedure of choice in selected patients. Latest data Gary Roubin
12.50 – 13.00	Hot news in vascular access and distal protection for carotid interventions Hugo Londero

13:00 – 14.00	<i>Lunch and Awards of Posters Competition</i>
14.00 – 14.10	Vascular access and closure devices for TAVR intervention Matjaz Bunc
14.10 – 14.20	Embolization of left gastric artery for weight reduction Zoltán Ruzsa
14.30 – 15.00	MITRA CLIP
15.00 – 16.00	LIVE CASE (Left gastric artery embolization)
16.00 – 16.15	<i>Coffee break</i>
SESSION 2	PREVENTION OF ATHEROSCLEROSIS AND STROKE: WHERE DO CARDIOLOGISTS STAND? (Joint Session with the Bulgarian Society of Cardiology) Moderators: Maria Tokmakova, <i>Vassil Traykov</i> Panelists: <i>Vassil Velchev, Ivo Petrov, Arman Postadjian</i>
16.15 – 16.30	Searching for the optimal LDL value to prevent atherosclerosis progression in 2019 Arman Postadjian
16.30 – 16.45	Silent atrial fibrillation: how to screen, diagnose and treat? Vassil Traykov
16.45 – 17.00	Stroke prevention in atrial fibrillation: role of LAA occlusion Vassil Velchev
17.00 – 18.00	General Assembly Bulgarian Society of Endovascular Therapy/ ISEVS local chapter
